- **BrowZine: eJournal Browing Tool for iPad or Android Tablet**

What is BrowZine?

The BrowZine is an app for your iPad or Android tablet that allows you to browse and download scholarly journals both open access and Library subscribed. You can easily browse journals, save and read articles online and offline, and export citations with BrowZine.

Current and back issues of journals from 2005 can be browsed by subjects and A - Z title list. You also can add favorite journals on "My Bookshelf" and save articles for future reading.

How to Use BrowZine to view the eJournals on Your iPad or Android Tablet

Step 1
Download and install the App on your iPad / Android Tablet

Available on the App Store

ANDROID APP ON Google play

Step 2
❶ Select "Hong Kong Polytechnic University" from the pull down list.

❷ Login with your NetID and NetPassword

Step 3
Browse / search the title of journal in two ways:

- By Subjects; and
- By Titles A - Z
